### **Job Description:**

Veterinary technicians will assist veterinarians in the care of animals. They may perform an initial evaluation of the animal's condition, clean and wrap wounds, check vital statistics, collect blood and urine samples and administer medication and vaccines. They will also perform basic procedures such as teeth cleaning.

They help during patient examinations and surgical procedures by restraining animals when necessary, stocking examination and surgery rooms with supplies, sterilizing tools and ensuring that equipment is in working order. At Croydon we strive to treat every pet that enters the doors as we would our own, so the technicians will also communicate with pet owners and update patient files. Veterinary technicians often work Monday, and Wednesday-Saturday at Croydon.

### **Skills/Qualifications:**

Veterinary technicians must have excellent communication skills, so that they may interact with pet owners and coworkers. They must have an understanding of animal behavior and strong clinical skills in order to properly evaluate an animal's condition and provide treatment. They must be detail-oriented and well-organized so that they may take medical histories, carry out instructions, document patient statistics and update records. It's also essential that they enjoy working with animals and have the ability to comfort, handle and restrain large and small pets all while making the pet parents feel at ease. Any experience with Cornerstone software will be beneficial for this position.
